

AqBanking - Bug #166

"make" fails, since .42

11/25/2019 06:39 PM - AndreasFilsinger

Status: Rejected	Start date: 11/25/2019
Priority: Normal	Due date:
Category: AqBanking	
Betriebssystem: Linux	Anwendung: aqbanking-cli
AqBanking-Version: 5.99.42.0beta	Version der Anwendung:

Description
to reproduce:

```
git clone -b 5.99.42beta --single-branch --depth 1 https://git.aquamaniac.de/git/aqbanking
cd aqbanking
ACLOCAL_FLAGS="-I /usr/share/aclocal" make -f Makefile.cvs
./configure --with-backends="aqhbc"
make
```

make[5]: Entering directory '/root/aqbanking/src/libs/aqbanking/types'
make[5]: *** No rule to make target 'transaction.c', needed by 'transaction.lo'. Stop.

(.41 and older is OK)
.43, .44, "master" fails.

History

#1 - 11/25/2019 06:43 PM - AndreasFilsinger

- Related to Bug #155: Aqbanking cannot be build from git with out-of-source build directory added

#2 - 11/25/2019 08:25 PM - martin

- Status changed from New to Rejected

Please see "README" within the sources, especially chapter "5.2: Building from GIT".

The commands listed there are:

```
make -fMakefile.cvs
make typedefs
make types
```

After that "make" should do the trick.

Regards
Martin
