Beschreibung

While working on getting Gwen compile with MSVC under VCPKG, I found that debug.h uses variadic macros not according to the standard.

Attached is the patch that fixes that.

Historie

#1 - 16.08.2022 16:54 - wrobelda

For the reference, see <https://gcc.gnu.org/onlinedocs/cpp/Variadic-Macros.html>, at the bottom:

Variadic macros became a standard part of the C language with C99. GNU CPP previously supported them with a named variable argument ('args...', not '...' and VA_ARGS), which is still supported for backward compatibility.

#2 - 16.08.2022 17:03 - wrobelda

- Datei 0001-Fix-variadic-marco-usage.patch wurde gelöscht

#3 - 16.08.2022 17:06 - wrobelda

- Datei 0001-Fix-variadic-marco-usage.patch wurde hinzugefügt

#4 - 16.08.2022 19:08 - martin

- Status wurde von New zu Closed geändert

Thanks, applied to GIT.

Regards
Martin
