Beschreibung			
I'm trying to get the GNUcash flatpak maintainers to release a version that restores getting transactions from several German banks, but they say that they don't package beta versions in stable flatpaks https://github.com/flathub/org.gnucash.GnuCash/issues/104#issuecomment-3590163484 Do you think, pushing out a non-beta 6.7 would be doable?			

Historie

- Status wurde von New zu In Progress geändert

We are close to a stable version, however, I just released one of the last beta versions today. I'm waiting for more feedback.

I won't release a "stable" release until I'm convinced it actually **is** stable.

Regards
Martin

(Edit: fixed a typo)
